The DUO Contemporary
Composite Door
a world of new possibilities

Welcome to the world of choice from **Bowater Doors**

Bowater Doors is one of the UK's leading composite door manufacturers. Our British made-to-measure doors are created to the highest specifications in our premises in Minworth, West Midlands. The vast choice of colours, glazing options and hardware means we can service each customer's needs to their unique requirements.

Bowater Doors is part of the worldwide VEKA Group, a family-owned, global business for industry-leading products.

The new DUO Contemporary Door is a beautifully designed modern door which offers a refreshingly up-to-date range suitable for a wide range of homes and buildings.

The DUO Contemporary Door range has been designed with symmetry and style in mind; each one is finished with attention to detail and built in Britain, using the strongest, low-maintenance materials. Thanks to their extra sharp woodgrain definition, they are virtually indistinguishable from a traditional timber door, but have a range of modern advantages.

Why choose a Bowater Composite Door?

Composite doors offer the look and feel of a traditional timber door with a huge range of additional benefits including:

- Requires little or no maintenance as no need to re-paint or sand
- Do not warp, crack or split like timber doors in different weather conditions
- Energy efficient with U-values as low as 0.89 saving money on heating bills
- Safe and secure with their steel reinforcement for added peace of mind
- Double rebate doors are 54% thicker than a standard door providing a quieter home
- Improved thermal and acoustic insulation thanks to double compression seals
- Triple glazing available for better heat retention and noise reduction
- Available in 10 style groups with an overall 39 design choices offering vast potential range of design options
- Hand made to order with a choice of hardware & glazing for uniqueness
- Comes ready to fit, fully framed with glazing and hardware to ensure easy installation and a perfect fit
- Ten year performance guarantee on all hardware
- Ten year performance guarantee on all GRP skin doors (terms and conditions apply, painted colours vary)

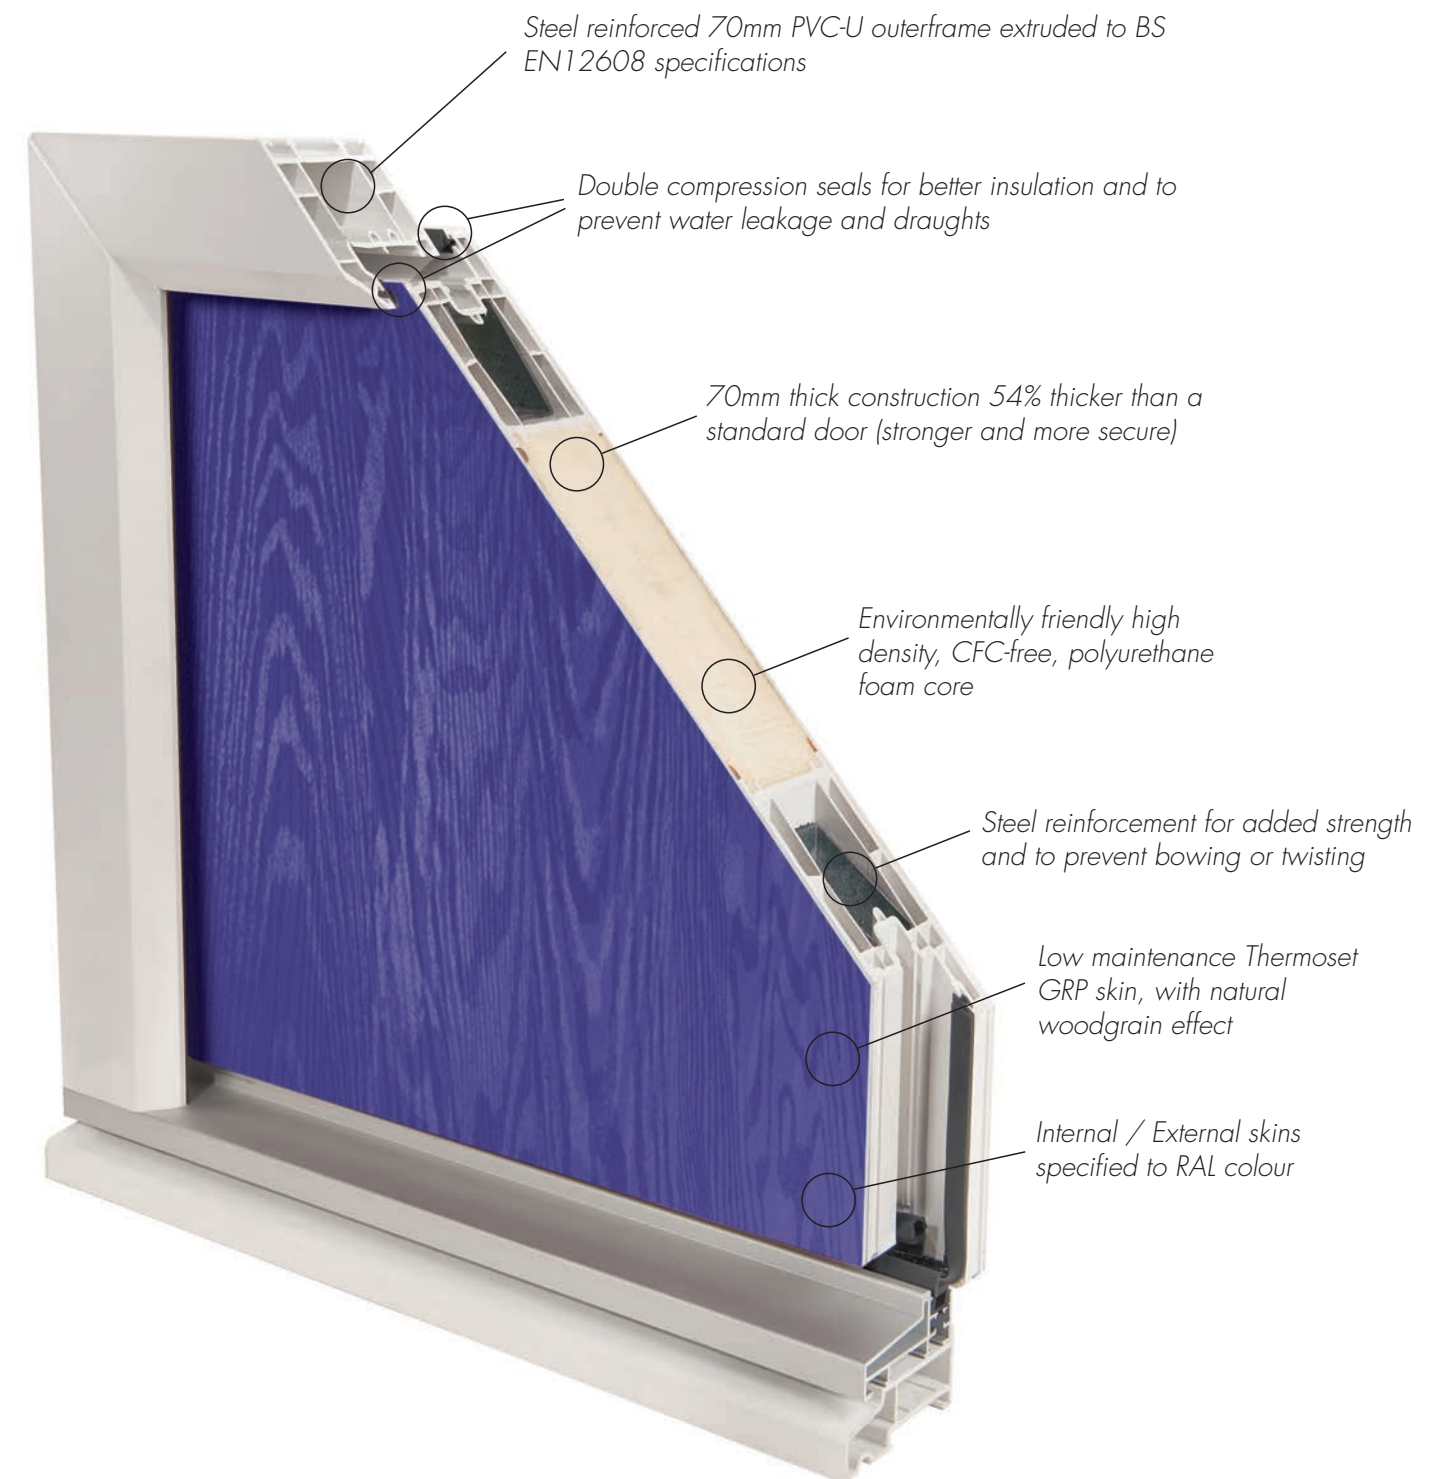

A Ratings

The Door Set Energy Ratings (DSER) measure the energy efficient performance of doors in a ratings scheme from 'A' to 'G', 'A' is the highest possible level of energy efficiency and heat retention.

U-Values

All doors must have a U-value of 1.6 or less to comply with Building Regulations across the UK, and the lower the U-value the better. All Bowater Doors DUO Composite doors are 1.1 or less.

Why not? **SPLASH OUT!** with a whole world of new possibilities

Bowater Doors are now available in
any colour you like for an even
more personal touch

Just pick a colour. Any colour! Once you've
picked your colour we can even colour the
frames to match your new door*

Go on... splash out!
